

Damage alert

ORANGE

Widespread damage; many buildings unusable

Provisional

Night occupancy

Buildings heavily damaged (DG3 or worse)

570 to 6.0 thousand

Central estimate 1.9 thousand. The range is the 5th to 95th percentile.

Buildings in the shaken area

2.3 million

21% of them inferred from built-up area, not observed footprints.

People by shaking level

Building exposure modelled for: Iraq. Shaded areas without exposure data are shown for shaking only.

Share of buildings in the mapped area by expected damage

Which buildings failed

Share of each type's own buildings heavily damaged, worst first
