

IMS-25 intensity

Expected damage grade (IMS-25)

Damage alert

ORANGE

Widespread damage; many buildings unusable

Provisional

Day occupancy

Buildings heavily damaged (DG3 or worse)

2.1 thousand to 68 thousand 3.5 million

Central estimate 9.7 thousand. The range is the 5th to 95th percentile.

Buildings in the shaken area

21% of them inferred from built-up area, not observed footprints.

People by shaking level

Building exposure modelled for: Iraq. Shaded areas without exposure data are shown for shaking only.

Share of buildings in the mapped area by expected damage

Which buildings failed

Share of each type's own buildings heavily damaged, worst first

Governorates most affected: heavily damaged buildings, central estimate and 90% range
