

IMS-25 intensity

Expected damage grade (IMS-25)

Damage alert

GREEN

Little or no building damage expected

Provisional

Night occupancy

Buildings heavily damaged (DG3 or worse)

25 to 310

Central estimate 91. The range is the 5th to 95th percentile.

Buildings in the shaken area

837 thousand

21% of them inferred from built-up area, not observed footprints.

People by shaking level

Building exposure modelled for: Iraq. Shaded areas without exposure data are shown for shaking only.

Share of buildings in the mapped area by expected damage

Which buildings failed

Share of each type's own buildings heavily damaged, worst first

Governorates most affected: heavily damaged buildings, central estimate and 90% range

Cities most affected

Every governorate inside the map
